### **Project Planning Phase**

## Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

| Date          | 12 March 2025   |
|---------------|---|
| Team ID       | PNT2025TMID02575  |
| Project Name  | Global Food Production Trend and Analysis a comprehensive study from 1961 to 2023 using |
|               | power BI  |
| Maximum Marks | 4   |

## **Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

| Sprint   | Functional Requirement (Epic) | User Story<br>Number | User Story / Task  | Story Points | Priority | Team Members                         |
|----------|-------------------------------|----------------------|--|--------------|----------|--------------------------------------|
| Sprint-1 | Data Collection               | USN-1                | Identify and gather data sources for food production.    | 5            | High     | Dnyaneshwari Chavan                  |
|          | Data Preparation              | USN-2                | Clean and preprocess collected data for analysis.        | 8            | High     | Susmita Patil                        |
|          | Dashboard Design              | USN-3                | Create wireframes for Power BI dashboard layout.         | 3            |          | Neha Patil                           |
|          |                               | USN-4                | Define key metrics and visualizations for the dashboard. | 5            | High     | Arya Kajave<br>Susmita Patil         |
| Sprint-2 | Data Modeling                 | USN-5                | Build data models in Power BI to connect data sources.   | 8            | High     | Neha Patil                           |
|          | Visualization<br>Development  | USN-6                | Create interactive visualizations for key metrics.       | 8            | High     | Dnyaneshwari<br>Chavan<br>Neha Patil |
|          | Testing                       | USN-7                | Conduct testing of dashboard functionality and accuracy. | 5            | Medium   | Dnyaneshwari Chavan                  |

|          | Feedback Collection        | USN-8  | Gather feedback from stakeholders on initial dashboard.       | 3 | Medium | Neha Patil  |
|----------|----------------------------|--------|---|---|--------|---|
| Sprint-3 | Training and Documentation | USN-9  | Develop training materials for stakeholders.                  | 5 | High   | Susmita Patil   |
|          |                            | USN-10 | Conduct training sessions for users on Power BI dashboard.    | 5 | High   | Arya Kajave   |
|          | Launch                     | USN-11 | Officially launch the Power BI dashboard.                     | 3 | High   | Dnyaneshwari Chavan<br>Susmita Patil<br>Neha Patil<br>Arya Kajave |
|          | Evaluation                 | USN-12 | Evaluate dashboard effectiveness and gather further feedback. | 5 | Medium | Dnyaneshwari Chavan<br>Susmita Patil<br>Neha Patil<br>Arya Kajave |

# **Project Tracker, Velocity & Burndown Chart: (4 Marks)**

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date<br>(Planned) | Story Points<br>Completed (as<br>on Planned End<br>Date) | Sprint Release<br>Date (Actual) |
|----------|-----------------------|----------|-------------------|------------------------------|--|---------------------------------|
| Sprint-1 | 21                    | 10 Days  | 21 Feb 2025       | 02 March 2025                | 21   | 01 March 2025                   |
| Sprint-2 | 20                    | 10 Days  | 02 March 2025     | 12 March 2025                | 21   | 11 March 2025                   |
| Sprint-3 | 17                    | 2 Days   | 12 March 2025     | 13 March 2025                | 13   | 13 March 2025                   |

\_

### **Velocity:**

**Total Story Points Completed: 58** 

Total Number of Sprints = 3

Velocity = Total Story Points Completed / Number of Sprints

Velocity =  $58 / 3 \approx 19.33$ 

### **Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.

| Sprint | Day | Total Story Points | Story Points completed | Remaining Story Points |
|--------|-----|--------------------|------------------------|------------------------|
| 1      | 1   | 58                 | 0                      | 58                     |
|        | 2   | 58                 | 0                      | 58                     |
|        | 3   | 58                 | 0                      | 58                     |
|        | 4   | 58                 | 0                      | 58                     |
|        | 5   | 58                 | 0                      | 58                     |
|        | 6   | 58                 | 0                      | 58                     |
|        | 7   | 58                 | 0                      | 58                     |
|        | 8   | 58                 | 0                      | 58                     |
|        | 9   | 58                 | 0                      | 58                     |
|        | 10  | 58                 | 21                     | 37                     |
| 2      | 1   | 58                 | 21                     | 37                     |
|        | 2   | 58                 | 21                     | 37                     |
|        | 3   | 58                 | 21                     | 37                     |
|        | 4   | 58                 | 21                     | 37                     |
|        | 5   | 58                 | 21                     | 37                     |
|        | 6   | 58                 | 21                     | 37                     |
|        | 7   | 58                 | 21                     | 37                     |
|        | 8   | 58                 | 21                     | 37                     |
|        | 9   | 58                 | 21                     | 37                     |
